 Goal: 95%*

Red, 4

Orange, 0

Blue, 5

Performance Over the Last 6 months

On-Time Passenger Waits

Undelayed Passenger Trips

*Goals are preliminary and subject to change

IMPORTANT NOTE

Calculations exclude weekend diversions and days the system was shut for snow emergencies. Performance is only measured for the parts of the system that were running. It does not take into account delays caused by shuttle busing during the winter storm diversions, as there is no automated data about that segment of the trip. Actual performance for February is thus worse than the statistics reported here.
