Roslindale Robert St Bridge Replacement Project Public Information Session

DATE:

**Thursday,
July 16, 2020
from 6:00 p.m.
to 7:30 p.m.**

LOCATION:

**Virtual Public
Information
Session**

EVENT:

**Project
construction
update**

The Robert Street Bridge carries the Needham Line over Robert Street near Roslindale Village Station. The steel bridge, which was built in 1898 and last rehabilitated in 1985, is nearing the end of its useful life and will be completely replaced to meet the MBTA’s reliability and modernization needs.

Join us for a virtual public information session on Thursday, July 16 at 6:00 p.m. to learn more about the Robert Street Bridge Replacement Project. During this meeting, the MBTA Capital Delivery Department and its Project Team will present a construction update so stakeholders know what to expect during replacement of the bridge. Following the presentation, the team will be available to answer questions as time permits. A document will be posted online with the questions and answers that the team was unable to get to during the meeting, if any.

For the safety of the Project Team and meeting attendees, this meeting will be hosted online, using Zoom. The presentation will be posted on the website the day before the meeting to allow time for those who can only attend by phone a chance to review it. The meeting will be recorded and posted online for those who cannot attend. You can also email questions and comments at any time to RobertStBridge@MBTA.com.

An email will be sent to the project contact list once details on how to join and participate in the meeting are posted on the project website. To sign up for email updates and view meeting information, please visit [MBTA.com/RobertStBridge](https://www.mbta.com/RobertStBridge).

For inquiries and comments related to the project, please send us an email at RobertStBridge@MBTA.com.
