

Week in Review and Lookahead

Friday, February 24, 2023

This weekend, February 25 - 26, work will continue on the demolition of the Government Center Garage. [Green Line trains will bypass Haymarket in both directions](#)

D Branch Station Accessibility Improvements

- **Lookahead** | Upgrades to four D Branch stations will make the D Branch the first accessible branch on the Green Line. Design completion is progressing to 100% and the GLT team is coordinating with its partners to get final approval on the project design. Construction to remove barriers to accessibility at Waban, Eliot, Chestnut Hill, and Beaconsfield Stations is anticipated to begin later this year. Project features include raised platforms, accessible pathways, and accessible parking spaces, as well as improved wayfinding and lighting, new benches, and call boxes for information and emergencies
