

# Green Line Transformation

## Design Project Updates

## Week in Review and Lookahead

### Friday, March 17, 2023

Green Line Transformation projects in design, including D Branch Station Accessibility Improvements and Newton Highlands Accessibility Improvements continue to progress, and crews are preparing to begin Symphony Station utility relocation work next month

## Symphony Station Accessibility Improvements

- **Lookahead** | Thank you to everyone who joined the Green Line Transformation team at last night's **public meeting** for Symphony Station utility relocation work. Preparations are continuing for the start of construction. Relocating utilities around the Massachusetts Ave/Huntington Ave intersection, which is scheduled to begin in April, will allow for **station upgrades** work to begin in 2024
