

# **Warehousing and Logistics Update**

**Fiscal and Management Control Board** 

March 25, 2019

### **OVERVIEW**

- MANCON has successfully opened new warehouse in Stoughton and closed MBTA warehouses in Everett and Charlestown
- Bus/Rail maintenance is better with:
  - ❖ 98.9% overnight part delivery
  - ❖ 2 hour emergency parts delivery 24x7x365
  - ❖ 89.4% accurate inventory
- Better performance than legacy system at lower cost
- When contractual KPIs are missed, penalties are assessed

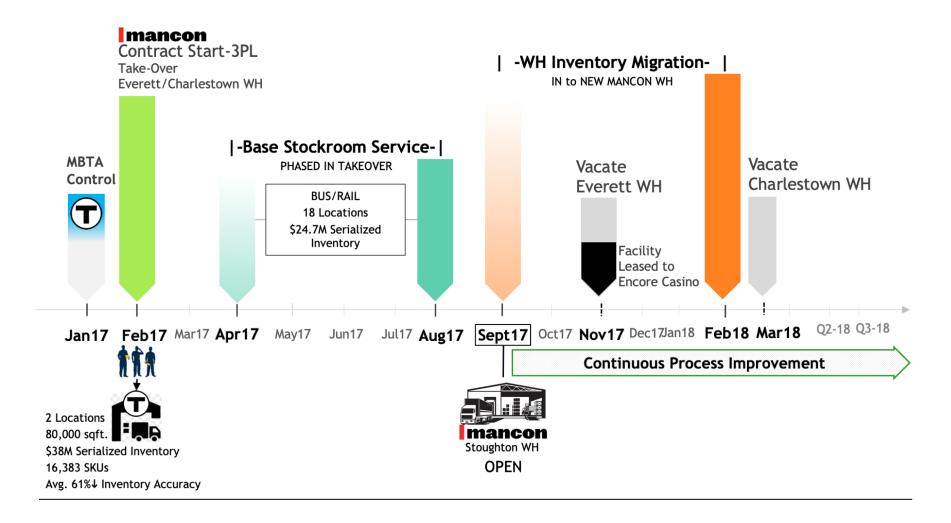

### **CONTRACT OVERVIEW**

<b>Service Provided:</b>	Warehousing & Logistics of MBTA Inventoried (i.e. serialized) material as well as Spare Parts	
Scope:	<ul> <li>1 Main Warehouse ("Stoughton") 24x7x365</li> <li>18 Base Locations/Stockrooms (Bus/Rail/E&amp;M)</li> <li>Material Planner coverage @ Base Locations are staffed per MBTA requirements/business needs</li> <li>Emergency Delivery: 24x7x365</li> </ul>	
Contract Term:	Initial:	<b>5 year</b> [Feb2017-Jan2022]
	Options:	2 x 2 year [Feb2022-Jan2026]
	Total Term:	9 Year
Termination clause:	MBTA reserves the right to Terminate for Convenience - 30 day notice	

NOTE: Contractor is **NOT** responsible for **Purchasing MBTA Parts**, **Owning MBTA Parts** or **Controlling Inventory Levels**. Also, the RFP and subsequent award for Base Location Stockroom Material Planner coverage (staffing) does not require 24x7x365 coverage at any location.

## **WAREHOUSE & LOGISTICS - ONBOARDING TIMELINE**

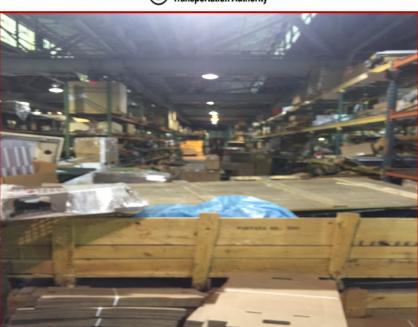

# Warehousing and Logistics Improvements over MBTA Legacy Operations cont.

#### **Everett Warehouse**

February 1, 2017

### **Stoughton Warehouse**

March 20, 2019

mancon

#### **Notable Procedure Changes**

- ✓ Improved Receiving, Inspection and staging processes
- ✓ Implemented LEAN 5S methodologies
- ✓ Standardized Material Distribution to Base Locations

# Warehousing and Logistics Improvements over MBTA Legacy Operations

#### Where we WERE - 2017

Massachusetts Bay Transportation Authority

- Inaccurate Inventory (**61%**↓)
  - Severe lack of Process and Procedures
- Slow Parts delivery: **68+ hours**
- No ownership of Obsolete Inventory
- Main Warehouse Coverage: **8 hours x 5 days**
- Poor Warehouse Organization
- Little to No Consistent Reporting
- 2hr Emergency Deliveries not supported

#### Where we ARE - 2019

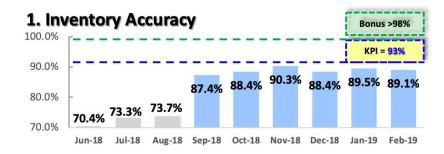

mancon

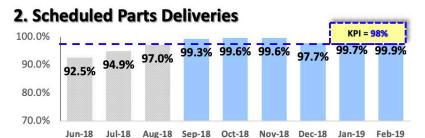

- + Inventory Accuracy: Q4 2018 avg 89.4%
  - Consistent Daily Cycle-Count Program
- + Parts delivery: Q4 2018 avg 98.9% → overnight
- + Improved Obsolete Identification & Disposition Plan
  - \$3.2M dispositioned CY2018
- + Main Warehouse Coverage: 24x7x365
- + Improved Warehouse Organization / LEAN 5S
- + Greatly Enhanced Reporting Capability
  - Weekly Supply Chain Review
- + 2hr Emergency Deliveries: 24x7x365

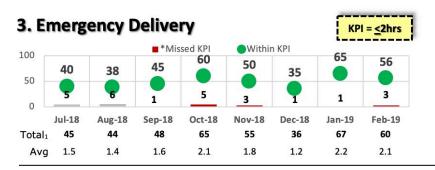

# **Contractual KPI Performance Measurement and Accountability**

### **KPI PERFORMANCE**

#### **BACKGROUND**

#### 3 Contractual KPIs

Performance expectations critical to maintaining an accurate inventory and timely delivery of parts.

#### **Definition**

- Inventory Accuracy: system of record vs. physical inventory counts.
- Scheduled Deliveries: parts requested today must be delivered overnight and received in system of record by 10am ("Pick to Receipt")
- 3. Emergency Delivery: urgent parts requests delivered within 2 hours of receiving request

#### **Vendor Performance Management**

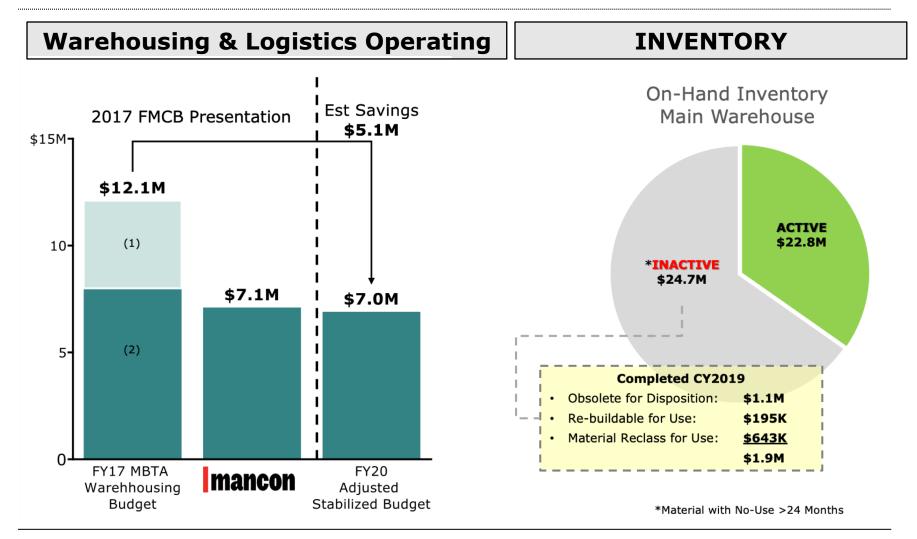

- Measured on a monthly basis and submitted to vendor via Performance Dashboard & official Notification Letter
- Quarterly Business Reviews are consistently held with contractor Leadership and internal stakeholders
- Significant performance improvement month over month within all three measurements
- Penalties have been assessed for missing KPI Targets

<sup>1</sup>Total Deliveries include Vendor disputed deliveries where Vendor missed the 2hr window however, the MBTA accepted the reason for the late delivery

<sup>\*</sup>deliveries where the 2hr window was missed and disputes were not accepted

# **Financials**

- (1) \$4.1M in calculated cost pertaining to: Retiree Healthcare, Pension Cost and Mechanic Productivity [as presented to the FMCB in January 2017]
- (2) FY17 budget includes executive and management costs, utilities, supplies, services, materials

# Continue to drive operational insight and process improvements through Data Analytics

- 1. Maintain Minimum / Maximum Inventory Levels at Garages
- 2. Continuously improve the obsolescence process with Operations and Procurement input
- 3. Develop processes surrounding fleet material management throughout lifecycle of Assets
- 4. Develop analytical reviews of backordered material for better Inventory planning
- 5. Improve internal MBTA processes at Base Locations to eliminate potential for "workarounds"
- 6. Implement new Stockroom Security upgrades to ensure personnel follow processes for material acquisition
